Boziki Marina Kleopatra, MD, MSc, PhD

Current position [since 10.2019]: Assistant Professor in Neurology (A.U.TH.), 2nd University Neurological Department, AHEPA University General Hospital of Thessaloniki, GR | Center for Multiple Sclerosis & On-site Supervisor of the The Laboratory of Experimental Neurology and Neuroimmunology of the 2nd University Neurological Department

Education

03.2012 - 03.2016 Resident in Neurology; 2nd University Neurological Department, Aristotle University of Thessaloniki (AUTH), AHEPA General Hospital of Thessaloniki, Greece

09.2014 – 03.2015 Master in Science (M.Sc.) in Clinical Applications of Molecular Medicine; Department of Medicine, School of Life Sciences, University of Thessaly, GR. Thesis: "Experimental study of microglia in the Central Nervous System following H. Pylori antigen administration"

10.2008 - 04.2014 Ph.D. (including 28-Month Fellowship in Max-Planck Institute, see Research/Working Experience) 2nd University Neurological Department, AUTH, GR. Thesis: "Study of immunomodulative properties of H. pylori in a mouse model of Multiple Sclerosis"

10.2005 – 11.2007 Master in Science (M.Sc.) in Medical Research Methodology (Field of Clinical Research), Department of Medicine, School of Life Sciences, AUTH, GR. Thesis: "Insulin metabolism in patients with Alzheimer's disease and Mild Cognitive Impairment – Association with apolipoprotein E genotype"

10.1998 – 07.2004 Medical Doctor (MD); Department of Medicine, School of Life Sciences, AUTH, GR

Scientific experience/Expertise

06.2016 – 10.2019 Scientific Collaborator at the Multiple Sclerosis Center & Laboratory of Experimental Neurology and Neuroimmunology of the 2nd University Neurological Department, AUTH, Thessaloniki, GR. Clinical and basic Neuroscience Research on Multiple Sclerosis (MS) and the mouse model of Experimental Autoimmune Encephalomyelitis (EAE) 11.2009 - 03.2012 Visiting Fellow (Research Fellowship) at the Department of Neuroimmunology, Max – Planck Institute for Neurobiology (Head: Prof. H. Wekerle), Martinsried (Munich), Germany. Experimental Research on Neuroimmunology 05.2005 – 08.2005 Visiting Fellow (Research Fellowship) at the Alzheimer's Disease Center,

Geriatric Research Education and Clinical Center (Head: Prof. N. Kowal), Boston university

School of Medicine, Bedford VA Medical Center, MA, USA. Neuropathology, brain banking techniques for Alzheimer's and other neurodegenerative diseases Member in international scientific organizations/ scientific panels

(1) Member, Core Group of the European Academy of Neurology (EAN) Coordinating Panel on Rare Neurological Diseases (representing the EAN Scientific Panel on Neuroscience/translational neurology)

(2) Member, EAN Scientific Panel Neuroscience/translational neurology[
